Money Easy---Governments Steady---South Carolinas Rising.

WALL STREET, FRIDAY, May 31—6 P. M. On 'Change to-day wheat was fairly steady. The four market was heavy and dull. Cotton was quiet and steady.

THE SUMMER SEASON AND THE STOCK EXCHANGE. During the ensuing four months the Stock Exchange will close daily at four o'clock P. M., and on each Saturday of the same period at three o'clook. To-morrow (June 1) the adjournment will be virtually much earlier, owing to the attractions of the races at Jerome Park, which are always generously patronized by the Wall street MONEY BASY.

The money market was easy and offered little in the way of novelty. The government dealers had the usual balances left with them at 4 per cent and dealt with each other on the basis of 5 per cent. Loans on stock were made at 5 per cent as a general thing and at 6 per cent in some instances. On the other hand some specialties in the share list were scarcer than the equivalent money, and were "carried" or borrowed at flat to 2 a 3 per cent. Prime paper was, if anything, easier and quotable at hardly more than 7 per cent discount.

Foreign exchange was steady for sixty-day bills,

but some weakness was noticed in sight sterling, which one prime house was drawing at 110% against 110%, the rate elsewhere.

THE GOVERNMENT GOLD SALE,
postponed from yesterday, owing to the holiday in
connection with Decoration Day, came off to-day at

noon. The bids filed were eighteen in number, and called for a total of \$4,515,000 at 113.50 a 114.15. The two millions was sold at 113.94 a 114.15.

The Sub-Treasury paid out \$99,000 in redemption of the called 62's, and \$199,000 on account of interest.

Gold was quiet and steady at 114 a 114%, with the sales chiefly at 114 and 114 1-16. Whatever new of the negotiations in connection with the Suppleany decided operation for the rise or fall, and the market remained dull on the basis indicated. The closing quotation was 114 1-16 a 11416, the firmer thus signified being the effect of announcement that the engagements specie for shipment to-morrow to \$2,050,000, of which \$100,000 is silver (bars). In the gold loan market the rates ranged from four per cent for carrying to flat for borrowing. The SALES AT THE NEW YORK STOCK EXCHANGE government gold sale had little influence, apparently, for the reason, doubtless, that the gold clique were not conspicuous among the buyers, however interested they may have been through the indirect agency of "orders." The operations of the Gold Exchange Bank were as follows:-

The government list was steady with a moderately firm undertone. The cable prices for our bonds abroad showed a decided improvement yesterday, the treaty question disregarded. Thus noon and 98% again at the close. The following were the closing quotations:—United States cur-117% a 117%; do. do., coupon, 119% a 119%; do. five-twenties, registered, May and November, 113% a 114; do. do., 1862, coupon, do., 113% a 114; do. do., 1864, do. do., 113% a 114; do. do., 1865, do. do., 114% a 115; do. do., 1867, registered, January and July, 116% a 116%; do. do., 1865, coupon do., 116% a 116%; do. do., 1867, do. do., 1171/4 a 1171/4; do. do., 1868, do. do., 117 a 117%; do. ten-forties, registered, 111 a 111%; do. do., coupon, 112 a 112%; do. fives of 1881, registered, 112% a 113; do, do. coupon, 112% a 113.

The Central Pacifics were a fraction higher and

Southern list was dull and without new fe which were stronger, doubtless as a consequence of the careful circulation by letter of a printed copy of two since) that the Legislature had neglected to make provision for the payment of interest in the interval to the next session. THE CITY CREDIT.

As will be seen by a reference to our general news columns, the credit of the city has fully recovered from the prostration it experienced half a year ago under the first exposure of the extravagance and corruption of the old political clique so long controlling the government. The bids for the dock bonds yesterday were about three times the amount offered, and the premiums ranged from 1 to 4% per

cent on par. The awards were made at an average of over 103 per cent. STOCKS HIGHER AND STRONG. For some reason the "bears" lost courage to-day and were discovered to be heavy buyers of stocks to cover previous speculative sales. The result was a reaction in the tone of the stock market and a generally firmer feeling, although as yet there is an absence of a widespread speculative interest. It may be that the "bears" perceived signs of an incipient revival of operations on the part of the so-Vanderbiit party and their numerous offshoots and affiliations, for the dealings in Lake Shore and New York Central stock and scrip were enough to indicate some-thing of this kind. On the other hand the long slumbering interest of the Vanderbliters may have been at length aroused by the very perceptible expanse of short interest enough to render it worth while to try a quick and brilliant turn before their summer rustication. The "bears" have worried and teased the market so long, and with such indifferent success, except in such instances as Pacific Mail, where they are supposed to have had the help of inside treachery, that the larger "bull" operators are beginning to think there is inherent strength enough in the market to allow of their safely venturing upon it, even with the undoubted inflation of many of its fancy features. Be this as it may, the firmer feeling is, in another view, only a logical sequence of the present situation of the treaty question. If, say the "bulls," the anticipation last Monday of a full settlement of the whole matter in dispute between England and the United States could have had the singular effect it did upon stocks, then the prophesied rejection of the supplemental article, and with it the undoing of the whole Washington Treaty, must inure to the advantage of those who are holding stocks at the present time. Harlem should not be included in the strength spoken of as appertaining to the Vanderbilt favorites, that stock having been weak and lower, its depression being explained by the possible chance that Commodore Vanderbilt is selling Harlem stock to build the underground railroad, which is eventually to be consolidated with Harlem as an extension of the same down town. The tunnel is to be begun within a few weeks and the completed underground road may be looked for within a year or two. The sales of Erie for London account continued to depress its price, which went of to 62%. The chief improvement was in Northwestern, which advanced nearly two per cent. Panama recovered to 118% and Dela-
